FOR IMMEDIATE RELEASE

Frederick Health Home Care Wins National Award

Frederick, MD – August 19, 2024 Frederick Health Home Care, part of the healthcare system's expansive network of services, was recently named a Top Performer by Strategic Healthcare Programs (SHP), a leading performance-ranking agency for healthcare systems. That means Frederick Health's experienced and compassionate Home Care team is in the nation's top 20% in quality measures, metrics, and patient satisfaction scores.

This annual award was created to acknowledge home health agencies consistently providing high-quality patient service. The current award recipients were determined by reviewing and ranking the overall satisfaction score for more than 3,200 home health providers. With the largest benchmark in the nation, SHP is uniquely positioned to identify and recognize organizations that have prioritized patient satisfaction and have been rewarded for their efforts with high marks.

"SHP is proud to partner with so many organizations that put a high value on providing quality patient care, and we are honored to recognize the hard work and dedication of our top-performing customers with the annual SHP awards. These organizations deserve to be celebrated for their commitment to achieving new levels of excellence each and every year", said Kevin Vogel, President of SHP.

Frederick Health Home Care brings exceptional healthcare to patients' homes. Experienced and compassionate healthcare professionals work closely with each patient, family, and/or caregiver to create a treatment plan to support their recovery.

"I have the privilege of leading a team that takes patient satisfaction to the next level, and the patient is truly at the center of the care we provide. Their experience is a core focus for these clinicians, and they exemplify it in everything they do," said Brandon Blake, Director of Frederick Health Home Care.
