FOR IMMEDIATE RELEASE

Frederick Health Publishes Annual Community Impact Report

Frederick, MD – November 11, 2024, Frederick Health, the largest healthcare provider in Frederick County, has published its FY23 Community Impact Report. This annual report provides a snapshot of Frederick Health's positive health outcomes and intangible contributions to improving wellness. This report, covering July 2022 – June 2023, highlights Frederick Health's mission to positively impact the well-being of every individual in our community. The healthcare system accomplishes that mission through thoughtful programs, helpful community services, continued education, financial assistance, and more.

"From free in-home visits for newborns and their families to assisting our senior population with navigating everyday healthcare needs, Frederick Health works to provide the resources needed to establish healthy behaviors and engage all members of our community in their wellness," said Tom Kleinhanzl, President & CEO of Frederick Health.

The report also details stories about how the Comprehensive Care Center, Dental Clinic, and Breast Center play a role in caring for patients when it matters the most and reducing patient volumes and readmission rates to the emergency department. Additionally, the Community Impact Report captures Frederick Health's financial investment in our community, expansions into areas like Brunswick, and its productive relationship with the Coalition for a Healthier Frederick County.

"Our team is dedicated to providing the community with quality services, innovative programs, and seamless access to care. Frederick County is a growing community, and Frederick Health is honored to play a role in ensuring that we all have the opportunity to thrive," added Kleinhanzl.
